3)User story for <https://www.google.com/>

John, a salesman, wants to know the time schedule of a business in order to talk with the owner and sell him the solution his company provides.

So, John picks his smartphone and in his browser opens google.com and in the searchbar, he enters the name of the business he is interested in the search bar and as he feels lucky he press the <I'm feeling lucky > Button.

As the store has a webpage he can browse throught it to find what he wants.

Facebook/Twitter: Share text, images, video, get in touch
With other people and communicate your feelings opinions,
Marketing yourself or your brand.

Youtube: A huge hub of all kind of multimedia content from
Videos to live streaming. It allows the viewers to comment and
Provide feedback to other users or the creator himself

Google: Web search engine, allows you to look whatever you
Want from information to shopping. Integrated with the google
Maps service and google translate among others. Also provides
Some short definition of the search query.
